Crime and Disorder Implications

Section 17 of the Crime and Disorder Act 1998 places a duty on local authorities to consider the crime and disorder implications when exercising its functions with due regard to the likely effect of the exercise of those functions and to do all that is reasonably can to prevent crime and disorder in its area. Where relevant any decisions made at the Parish Council meeting have taken this duty of Care into consideration

Appendix 1

Comments received from the Broadholes Lane play area change of use Jan 2022

- I would like to suggest (as I did when the play area was first discussed) to mention again an Outdoor Crown Green Bowling area. It could be for ALL ages including a Young peoples section, a Senior citizens section and simply an Adult section. In other words it could be for the WHOLE village not just a few. It is a quiet game but would be limited to about 6-8 months a year
 - Most of the outside gyms I have seen are under utilised. There are too many available professional staffed and properly equipped internal gyms available to anyone interested in keeping fit. Any gym equipment needs to be maintained and such this proposal would bring an ongoing maintenance issue to the Parish Council.
We would support the idea of use of the site as allotments. This would have local community benefit making good use of a site which is difficult to police. I am sure some of the rental income from the allotments could be put to good community benefit. I assume some rental income needs to be put into a fund to maintain the site.
1. **A Dog Agility Park** - There certainly seems a number of dog owners in the village that would love to exercise their dog in addition to using the dog walk at Marston Fields.
 2. **An Outdoor Gallery & Sculpture Park** - Containing enclosed display boards of local artwork, photographs and other creations as there are some talented people in our village*
 3. **A Parish Timeline** - A meandering walk around an outdoor pictorial display of the history and development of Wheaton Aston over the last couple of centuries as there appears a plethora of old photographs (mainly acquired by Ray Cowley). There is certainly an interest as there are almost 1200 people in the "Wheaton Aston History" Facebook group (<https://www.facebook.com/groups/766266813486373>) and not everyone is on Facebook.*

*To help keep the area low maintenance and environmentally friendly, perhaps finely chopped bark chippings could be used as paths around the displays.

- The suggestion of allotments would seem the most sensible idea though as it would be self maintaining. I know there has been some interest in the village as the folks at Lock Cottage have made available a few plots on some land of theirs for allotments. The downside might be extra parking along Broadholes lane and a water supply would also be needed.
- Thank you for the latest Parish Council 'News & Views' newsletter regarding possible changes to the use of the Broadholes Lane 'Play Area' in Wheaton Aston. The council's previous improvement of this area by removing vandalised playground equipment and creating a 'nature park' several years ago has been very successful. Primarily this is because the fencing and gating of the area together with limiting access to daylight hours has eliminated the rowdy behaviour and vandalism occurring in the park at that time, which was a problem for adjacent residents. The flowering trees and shrubs planted and the inclusion of the small pool/marshy area has created a small and peaceful wildlife haven full of birds and pollinating insects. This is a great benefit to the village environment generally and especially to residents like us who are lucky enough to have a garden backing onto the area. We have particularly appreciated the peace and tranquillity of having a garden next to the park in the last two years having spent so much time during the covid lockdowns confined in our garden. Rather than change the use of the area into 'community allotments' or an 'outdoor gym', we would much prefer that the council builds on the good work already done by supporting current county and national environmental improvement initiatives by planting a few more trees and wildflowers in the park and maintaining current access arrangements 'as is'. As well as the Queens Green Canopy project there are several organisations which provide information, funding and resources to support local community environmental improvement initiatives of this type including (links provided);

- [Staffordshire Wildlife Trust](#)
- [The Woodland Trust](#)
- [BBC Countryfile Plant Britain](#)

We fully support the councils climate and biodiversity policy and the aspiration to plant more trees in the parish to assist the Queens Green Canopy project. This would be an excellent way to mark the Queens platinum jubilee year in the parish. Involvement of the local community in tree planting and improving spaces like the Broadholes Lane park in this way will probably also increase the use and appreciation of the area as a valuable natural wildlife resource within the village. Thank you for keeping us informed and seeking our views which we hope the council will take into serious consideration rather than the (to us) less preferable options of allotments or an outdoor gym (either of which might re-introduce the problem of noise and possibly also vandalism in the park).

- I love the play area as it is but it would be nice to add something for younger kids and keep it as a play area. With the new homes on ivetsey road there is going to be more kids on that end of the village so I hope the area will be used more. We have a one year old child and we live on ivetsey road, it is convenient distance for us and I can't wait for the little one to be able to use the play area properly. He is just too young for it now. But my point is, there are lot of kids in the village and having a nice play area in broadholes lane will benefit them because of the new developments coming to ivetsey road. I was going to suggest a new playground there but if you are willing to make broadholes lane little bit more friendly for younger kids then I am sure it will become favorite play area for that part of the village. Primrose play area is really nice but it's on the opposite end of the village, I know it's not that far away but having a play are closer would be nice.
- We wonder if a possible use for the play area might be a community orchard to provide fruit for residents of the village who have small gardens. There are already one or two fruit trees there.
- We would like to register our approval of potential change of use to allotments at broadsides Lane. We think this would be very beneficial to the community and used significantly more than currently.
- I've read News & Views and would like to see Broadholes Lane play area used as allotments. It seems that that use of the area would be the choice of residents in the immediate vicinity and it could be put to great community use as allotments. Allotments may also generate a small income rather than the current costs every year to maintain the site and clear up when it is vandalised.
My concerns with an outdoor gym would be the possibility for vandalism and antisocial behaviour in such an enclosed and private space which would be expensive for the Parish Council and disruptive to the neighbouring properties.
- We think that allotments would be an excellent idea for the community and also for the environment. There are always waiting lists for allotments and there would be no problem in gaining eager allotmenteers. To achieve this would involve people of the village to come together and this can only be a good thing. It is certainly something that we would like to take part in and hopefully have our own allotment there
- I think it would be lovely to see Broadholes Lane Play Area put back into use. I think the idea of allotments would be a great community project that could bring people on the village together, unfortunately I think vandalism could be an issue but that area is secure and can be locked. I hope whatever is decided benefits as many people in the village as possible.
- Keep it as it is and add some outdoor gym things
- Outdoor gym would be great for the older children, but cuz its so secluded wouldnt be helpful for older kids to be hanging around down there?
- Younger kids could benefit with new play equipment down there from 1-6years? Allowing older ones to be boistrous on alternative play areas
- Allotments with outdoor gym attached
- Allotments I think. Most outdoor gym stuff in other places never gets used or gets vandalised unfortunately
- Enclosed dog park with some agility type things for them to play on etc. The little dog strip is kind of shameful 😞

- Clearly the kids can't be trusted so let's give it the doggos
 - Keep it as it is and add some outdoor gym things
 - We live opposite and in the summer months we take our 3 children over there. They love walking around and seeing the different wildlife. But unfortunately never have anything to play on apart from a few wooden blocks to walk along. X we'd love to keep it for the children
 - Adult gym equipment would be a great idea... equipment like what they have at Coven park is good and is well used .. I take my grandkids there and see people using it . The sandpit used to be good but needs all tidying up and weeding to make it appealing again but would be great to keep..
 - I think outdoor gyms aimed at children are the dumbest idea ever. Gym equipment is largely a means to an end for adults that otherwise would get little exercise. Children get exercise by playing, running, jumping, climbing etc. They don't need boring outdoor gyms!
- A climbing wall/frame, swings, slides etc: YES
Outdoor gym equipment: NO
- Community garden
 - A place for dogs and kids plus the outdoor gym for adults
 - Secure dog run for all to use would be perfect!
 - I vote for allotments

Planning comment: 22/0037/FUL- No objections

Bunting is being made for the Jubilee event by a group of volunteers

22/00022/TREE- T1- No objection to the removal of a tree if the tree is diseased or unstable, however, if there are measures that can be taken to retain the tree this should be actioned in the first instance in line with an appropriate response to the climate emergency. T2- a view should not be a consideration to remove, limit or damage a tree. Is a crown reduction an appropriate alternative? T3. no objection to the removal of conifers however replanting should always be factored in. T4 Acceptable to crown 22/00119/tree- The council does not feel suitably qualified to make a judgement on this application given that there are not any indications in the application that the tree is damaged or diseased. Would a crown reduction be a suitable alternative?

Grounds tender schedule agreed at working party meeting. Tenders to be considered at March meeting

Appendix 4.

Report on the play areas.

1. Primrose Play Park

- a. **Play Dale Equipment** – All issues were very low or low risk on the annual inspection report however as the main cost is the installation, it's better value to get all repairs done at the same time.

- b. **Wicksteed Equipment** – Repairs already made to the roundabout. All other with equipment although old, it is just recommended to monitor the wear.
- c. **Goal Posts** – The goal posts are timber. last annual inspection recommended the load testing of the goalposts. The cheapest quote was for £495 from Rospa who advised the British Standards EN 748:2018 and EN 8462:2005+A1:2012 lay down the test methodology, depending upon the goal type. The British Standard BS 8461:2005+A1:2009 recommends that strength testing of goals should be undertaken every 12 months. The standard is not mandatory in law, but is a set of recommendations. It is usual for such football goals to be made of steel, light metals or plastics, rather than timber. This is for durability and lightness usually, although all goals must meet the same testing requirements. The British Standard BS 8461 advises against the use of home-made goals. Given this recommendation, quotes were sought for replacements and stress tests:

Regular white goal posts:

Purchase two goal posts	It's a goal https://www.itsagoal.net/product/steel-goalpost-8-x-6-anti-vandal-single-goal/	£384.16 each plus installation
Purchase two goal posts	Harrods 12x6ft Goals – FBL-147 @ £816.67 per set Nets to fit – FBL-371 @ £106.67 per pair Elbow net supports – FBL-083 @ £135.00 per set https://www.harrodssport.com/super-heavyweight-goal-7v7-5v5/p-fbl-147 carriage @ £53.20	£1111.54 plus installation

The Football foundation offer grants for up to £75% of the cost of a pair goalposts including installation. Only traditional goals of various sizes are eligible. The maximum amount of grant awarded depends on the size of goalposts. They are unsure if the goalposts can be put on surfaces other than grass. The application only takes 10 minutes so it's worth trying.

B. Marston Field- awaiting repairs to the Pendulum by CPC who advised they will undertake the repair in Spring
